

**Columbia College of Nursing  
Application for Admission to the Nursing Major**

*The Columbia College of Nursing-Mount Mary College Nursing Program is dedicated to holistic development of all students seeking to become professional nurses. Nursing is a demanding undergraduate major, and the Program strives to promote success of each student not only in graduating from the Program, but also in being successful on the licensing examination.*

*To achieve its goals, the Program works with two categories of individuals seeking to become professional nurses, those declaring nursing as a major and those who are admitted to the nursing major. Admission to the nursing major is possible in two ways. Students who meet the criteria for direct admission at the time of admission to Mount Mary College are admitted to the nursing major. Students who do not meet the criteria for direct admission may be admitted after satisfying the following criteria:*

- *Completion of 24 credits with a minimum gpa of 2.0*
- *Completion of at least two college level biology and/or chemistry courses required in the Nursing major with a minimum grade of C in each course*
- *Ability to meet the technical standards*

---

**I have met the criteria for admission to the nursing major.**
